

COVERAGE OF 90651 (HPV) UNDER VFC

Coverage of 90651 for HPV under the Vaccine for Children Program (VFC)

Effective with dates of service on or after August 1, 2015, Human Papillomavirus, nonavalent (HPV), 3 dose schedule, for intramuscular use (procedure code 90651) will no longer be reimbursed for individuals covered under the VFC program. Prior to August 1, 2015, HPV was a covered vaccine outside of the VFC program effective January 1, 2015. Providers can reference KMAP State Bulletin 15247.

Members Aged 9-18	DOS 6/1/2015 to 7/31/2015	DOS on or after 8/1/2015
