

Coventry Health Care of Kansas Quick Reference Guide for Ordering Providers

April 1, 2015

Coventry Health Care of Kansas has selected NIA Magellan¹ to implement a radiology benefit management program for outpatient advanced imaging services. This program is consistent with industry-wide efforts to both ensure clinically appropriate care and manage the increasing utilization of these services.

NIA Magellan will manage the outpatient imaging services listed below through Coventry Health Care of Kansas existing contractual relationships.

The ordering physician is responsible for obtaining a prior authorization for advanced imaging services. It is the responsibility of the rendering facility to ensure that prior authorization was obtained. As the ordering physician of advanced diagnostic services, it is essential that you develop a process to ensure that the appropriate authorization number(s) has been obtained. Payment will be denied for procedures performed without a necessary authorization, and the member cannot be balance-billed for such procedures.

*A separate authorization number is required for each procedure ordered.

Important Notes

- Authorizations are valid for 60 days from the date of request.
- The NIA Magellan authorization number consists of eight or nine alpha/numeric characters. In some cases, you may instead receive an NIA Magellan tracking number (not the same as an authorization number) if your authorization request is not approved at the time of initial contact. You can use either number to track the status of the request on the RadMD Web site or via our Interactive Voice Response telephone system.
- For prior authorization complaints/appeals, please follow the instructions on your denial letter.

NIA Magellan's guidelines for the use of imaging procedures have been developed from practice experience, literature reviews, specialty criteria sets and empirical data.
- An authorization number is not a guarantee of payment. Whether the requested service is covered is subject to all of the terms and conditions of the member's benefit plan, including but not limited to, member eligibility, benefit coverage at the time of the services are provided and any pre-existing condition exclusions.
