Re: Reimbursement policy update: ~~Implementation change~~ for revenue codes 249-259 and 637 billed without a procedure code

We recently sent a letter informing you about a reimbursement policy update that would administratively deny revenue codes 249-259 and 637 when billed without a procedure code. We have reevaluated this reimbursement policy change, which affects its implementation.

What this means to you

- The previously communicated update to the Revenue Code Billing Requirements (R41) reimbursement policy is no longer effective for claims submitted with revenue codes 249-259 and 637 without a procedure code.
- Claims you may have submitted for dates of service on or after September 17, 2023 that were denied as a result of this policy update will be automatically reprocessed. You do not need to take any action.

If we decide to proceed with this policy update, we will communicate a new implementation date and additional details at a later time.

Thank you for the care you provide to our customers.

Sincerely,

A handwritten signature in black ink that reads "Julie B. Kessel MD".
