Re: Reimbursement policy update – 3D rendering billed with Current Procedural Terminology code 76377 effective April 14, 2024

We routinely review our coverage, reimbursement, and administrative policies for potential updates. In that review, we take into consideration one or more of the following: evidence-based medicine, professional society recommendations, Centers for Medicare & Medicaid Services guidance, industry standards, and our other existing policies.

As a result of a recent review, we will administratively deny Current Procedural Terminology (CPT®) code 76377 as incidental, consistent with the process in place for CPT code 76376. Denials will affect the claim line only and include administrative appeal rights.

We will update the Omnibus Reimbursement Policy (R24) to reflect this change. This update is effective for dates of service on or after April 14, 2024.
