We routinely review our coverage, reimbursement, and administrative policies for potential updates. In that review, we take into consideration one or more of the following: evidence-based medicine, professional society recommendations, Centers for Medicare & Medicaid Services guidance, industry standards, and our other existing policies.

As a result of a recent review, we will update the Code Editing Policy & Guidelines to add 10 codes with a status B indicator: Current Procedural Terminology codes 38204, 92921, 92925, 92929, 92934, 92938, 92944, and 97602 and Healthcare Common Procedure Coding System codes A4262 and A4263. These codes will be administratively denied when billed with another service not indicated as bundled.

Denials will affect the claim line only and include administrative appeal rights. This update is effective for dates of service on or after May 11, 2024.
